School of Computer Science and Engineering

PLACEMENT BROCHURE

Life @
RV University

RV University in Bengaluru provides a dynamic and enriching experience for Computer Science students. With cutting-edge facilities, the university fosters a stimulating atmosphere for creative exploration and personal development. Its focus on design thinking and innovation equips students to excel in the competitive field of Computing

About
SoCSE

The School of Computer Science and Engineering (SoCSE) emphasizes problem-solving, critical thinking, innovation, creativity, communication, entrepreneurship, and data science to navigate a VUCA - Volatility, Uncertainty, Complexity, and Ambiguity world. It aims to equip students with 21st-century skills through experiential and holistic learning approaches.

Vision

To be a pioneering school of Computer Science and Engineering committed to fostering liberal education and empowering the next generation of technologists to make a positive global socio-economic impact.

Mission

1. To be a pioneer in computer science education and benchmark ourselves with the world's top computer science and engineering institutions.
2. To provide state-of-the-art facilities that enable exemplary pedagogy, advanced research, innovation and entrepreneurship in emerging technologies of computer science.
3. To foster excellence through national and international academic, industry collaborations, bringing in diverse perspectives to drive innovation.
4. To nurture a talented pool of ethical, self-driven and empathetic problem solvers to achieve sustainable development goals.
5. To promote a culture of cooperation and inclusiveness among students and faculty from diverse communities enabling them to partake in interdisciplinary and multidisciplinary research, contributing to institution-building.

Curriculum:

Blended Learning

CS, Engineering and Humanities Core

- Mandatory courses covering all foundations in CS
- Exploring Science
- Engineering Explorations
- Mathematics

Specialisation

- Advanced Machine Learning and Deep Learning
- Generative AI and LLMs
- Data Science
- Data Engineering
- Full Stack Development
- Cloud Computing
- Cyber Security
- Quantum Computing

MINORS – INTERDISCIPLINARY Knowledge

- Business Administration
- Design Thinking & Business Entrepreneurship
- Marketing
- Economics
- Brand Experience Design
- Digital Experience Design
- Transdisciplinary Design
- Design, Media and Journalism
- Liberal Arts
- Film Direction
- Acting
- Robotics and Industrial Automation
- Undergraduate Research
- FinTech
- AI and Data Science
- Computing for Graphics Design and Visualization
- Innovation, Entrepreneurship and Product Development
- Bioinformatics

LEADERSHIP & 21ST CENTURY SKILLS

- Structured Innovation
- Entrepreneurial Mindset
- Technical Communications
- Leadership and Happiness + many more
- Performing Arts
- HOLISTIC Learning
- Community based lifelong learning
- Activity-based learning
- Asynchronous courses

University Electives enhancing holistic development (Collage pics only)

- Fundamentals of Public Health Informatics
- Game Theory
- Mathematics in Indian Knowledge Systems
- Bhagavad Gita- Life Lessons
- Introduction to Creative Painting
- Objects of Desire Ultra-Luxury, social media, and Material Culture
- Analysing Constructivist Composition
- Understanding the Users
- Personas and User Journeys
- Understanding the LINE – An Enquiry through Photographs
- Using Generative AI in Digital Tools
- Model Making
- Balancing Toys – Playing with Physics
- Weaving Stories
- Essential Office Applications
- Networking Essentials
- Introduction to Nanotechnology
- Fundamentals of Artificial Intelligence and Machine Learning
- Understanding and Mitigating Cyber Frauds
- Smartphone Filmmaking
- New Media Productions
- Photography course
- Kuchipudi course
- Hindustani Classical music course
- Contemporary Dance course
- Drumming Course
- Basic Guitar course
- Basic Light Classical Music course
- Basic Theatre Arts Course
- Negotiation and Mediation Act

Project-based Learning

Experiential Learning

During the Foraging wokshop, the students engaged in a nature exploration event where they identified various plants and weeds known for their medicinal properties, learning about the potential health benefits and traditional uses of these natural remedies

Students as a part of their Exploring Science course wrote a book on " Thirty Pioneering Scientists from India", which got launched on National Science Day 28 February 2024.

Students participating in a hands-on biogas production workshop @ Navadarshana.
